Special References Regarding the Books :

4.2.4

2022-23

Numbers per day usage of library by faculty members and students (foot falls and login data for online access)

Method of computing for day usage of library

= Total No. of Teachers & Students in each day for all working days

=

 Total No. of working days

Student

$$= \frac{3753 + 1186}{278} = \frac{4939}{278}$$

$$= \frac{4939}{278} = 17.76\%$$
